**Detailed Action**

1. Claims 7 and 8 are presented for examination. This office action is in response to the amendment filed on 10/14/2005.

***Information Disclosure Statement***

2. Applicants are reminded of the duty to disclose information under 37 CFR 1.56.

**REASONS for ALLOWANCE**

The following is an Examiner's statement of reasons for the indication of allowable subject matter: renumbered claims 1-2 are allowable over the prior art of record an update of a search does not detect the combined claimed elements as set forth in the claims 1-2. As to claim 1 claim is allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a virtual tape management method involves transferring virtual tape file from tape storage area of a processing unit, to virtual tape file of another processing unit using copy function between magnetic disk drives asynchronous to processing units comprises steps of a step in which the second virtual tape transfer processing unit locks the second virtual tape file to give a virtual tape input request to the first virtual tape transfer processing unit; a step in which according to the input request, the first virtual tape transfer processing unit locks a virtual tape volume and the first virtual tape file to create the first virtual tape file and the first virtual tape management information to the input; a step in which the first virtual tape file is transferred to the second virtual tape file using a copy function between disk

drives so as to be asynchronous to the first system; a step in which the second virtual tape transfer processing unit allows the tape using task execution part to use the second virtual tape file; a step in which the first virtual tape transfer processing unit unlocks the virtual tape volume and the first virtual tape file; and a step in which the second virtual tape transfer processing unit unlocks the second virtual tape file as described in the specification and together with combination of other claimed element as set forth in the claim. As to claim 2 claim is allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a virtual tape management method involves transferring virtual tape file from tape storage area of a processing unit, to virtual tape file of another processing unit using copy function between magnetic disk drives asynchronous to processing units comprises steps of a step in which the second virtual tape transfer processing unit locks the second virtual tape file to give a virtual tape output request to the first virtual tape transfer processing unit; a step in which according to the output request, the first virtual tape transfer processing unit locks a virtual tape volume and the first virtual tape file to notify, to the second virtual tape processing unit, that the virtual tape is usable; a step in which the second virtual tape transfer processing unit outputs the second virtual tape file in response to the notification to transfer the second virtual tape file to the first virtual tape file using a copy function between disk drives; a step in which the first virtual tape transfer processing unit returns data from the first virtual tape file and the first virtual tape management information to the virtual tape storage area after the transfer; a step in which the first virtual tape transfer processing unit unlocks the virtual tape volume

and the first virtual tape file when the transfer is completed; and a step in which the second virtual tape transfer processing unit unlocks the second virtual tape file when the transfer is completed as described in the specification and together with combination of other claimed element as set forth in the claim.

Therefore, claims 1-2 are allowable over the prior art of records.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons For Allowance."
